

DR. SANDEEP VAISHYA

HEAD – NUEROSURGERY, FORTIS MEMORIAL RESEARCH INSTITUTE

Summary of qualifications

1981	High School, Gwalior (MP)
1982-1987	MBBS, G.R. Medical College, Gwalior
1989-1991	MS (General Surgery), GRMC, Gwalior
1993-1996	M.Ch (Neurosurgery) AIIMS, New Delhi

Professional experience

1987 Nov – 1988 Nov

12 months rotating internship GR Medical College and JA Group of Hospitals, Gwalior

1988 Nov – 1991 Dec

GR Medical college and JA Group of Hospitals, Gwalior
Resident (Post Graduate) Surgery Department – 3 years of residency in General Surgery leading to the MS (General Surgery) degree.

1992 Jun – 1992 Dec

Senior Resident, Department of Neurosurgery , Safdarjang Hospital, New Delhi.

1993 Jan – 1996 Feb

Neurosurgery Department, CN Centre, All India Institute of Medical Sciences, New Delhi.

Three years of senior residency leading to the award of MCh degree.

1996 Sept – June 2003

Assistant Professor, Neurosurgery Department, CN Centre, All India Institute of Medical Sciences, New Delhi.

2003 – 2005

Associate professor, Dept. of Neurosurgery and Gamma Knife, AIIMS, New Delhi

2005-2006

Additional Professor

Dept. of Neurosurgery AIIMS

2006 – June, 2012

Senior Consultant, Neurosurgery

Max Super Speciality Hospital, New Delhi

July 2012 – till date

Head – Neurosurgery

Fortis Memorial Research Institute

Professional Experience

- Apart from doing routine Neurosurgery including head and spinal trauma, intracranial and intraspinal tumours, vascular surgery I have developed special interest in several fields first of which was in Gamma knife radiosurgery for which I was trained at Karolinska Institute, Stockholm, Sweden in March 1997. Since April '97 when our Gamma Knife was installed I have been instrumental in starting and functioning of the unit. We have treated more than 1000 cases in which my personal experience has been more than 650 cases which is the largest in the country.

- I have developed special interest in functional neurosurgery, spinal surgery and brachial plexus and peripheral nerve surgeries. My interest in spinal surgery particularly congenital abnormalities and spinal instrumentation continues. I am performing the largest number of brachial plexus and peripheral nerve surgeries in the country and have operated more than 250 cases till now apart from conducting various operative workshops in this field.

- I have started the Functional Neurosurgery program at our centre and have placed more than 60 DBS implants till now.

- Underwent a 2 weeks training in Gamma Knife Radiosurgery at Karolinska Institute Sweden.

- Attended a course in advanced pneumatic instrumentation for neurosurgical procedures conducted by Midas Rex Institute.

- Instrumental in starting the image guided surgery at AIIMS.

Membership

- Neurological Society of India
- Asian Congress of Neurological Surgeons
- Indian Society for Stereotactic and Functional Neurosurgery.
- Delhi Neurological Association.
- International Leksell Gamma Knife Society.
- Indian society of Paediatric Neurosurgery
- Indian society of spinal neurosurgeons
- Neurotrauma Society of India
- Indian Society for Skull base surgery
